

Key: Area marked in red – new wild flower area

In response to requests from the public to encourage biodiversity and attractive wild flower areas, the Council proposes to create such an area in Southgate Park hatched red on the above plan.

The Council has succeeded in obtaining a grant to sow wild flower seeds leaving a mowing strip of approximately 1.5 meters between it and the path. The area would be scarified and the seeds of local wild flowers sown this autumn. Thereafter the grass in the area will remain uncut during the growing season but cut once the flowers have gone over.

If the scheme proves attractive and popular the Council will consider rewilding other areas in the future.

If you have any objections, comments or observations, please contact the Town Clerk's office by either email or telephone.
