Dear Lucy,

On behalf of the Town Council, I am submitting an application for S106 funding to enhance accessibility and facilities at Twt Park. Following discussions within the S106 Group and with support from the Vale Council, we have compiled all necessary information and obtained quotes from multiple suppliers to support this proposal.

Project Title: Twt Park Accessibility and Facility Improvement Project

Legal Status of Organisation: Local Government

Organisation Overview: We serve the local community by maintaining a safe and welcoming space for recreation. Twt Park is a central gathering point for families, children, and individuals of all ages, fostering both physical activity and social interaction to enhance community well-being.

Project Summary:

This project aims to improve accessibility and update facilities at Twt Park. Planned upgrades include accessible play equipment and the replacement of five deteriorating benches around the park. These improvements will create a more inclusive and welcoming space, encouraging wider community use.

Anticipated Cost:

The project is estimated at £42,722 (excluding VAT). This includes the attached quote from Dragon Play - £39,472 - plus five Glasdon benches at £650 each. Three quotes have been obtained for the play equipment and benches, with Dragon Play as the preferred supplier. Supporting documents with the quotes are available upon request.

Project Value:

Upgrading Twt Park will enhance its value to the community by modernising ageing infrastructure and creating a more inclusive environment. The new benches will provide comfortable seating, and the accessible play equipment will serve a broader age range, ensuring that families can continue enjoying Twt Park for years to come.

Yours faithfully,

C Kennedy
